LONDON.

The Radical Pow-wow and Other Matters Of Interest.

LONDON, Sept. 30.

When I was here some six months ago I spoke of the Capital of Laurel as a capital place for a boom and the elapsing time has proved that I was not far from right. 'Tis true that the quaint little place is not the scene of industry like unto that place for which it is named, neither is the hum of business so plainly heard as in Old London itself, nor does it even rival the Magic City of Middlesboro, but to a man up a tree it is plainly evident that London is in a good state of growth and is already joining hands with the boom towns that march on to glory and prosperity. In fact the improvements have been so vast since my last visit that I should have imagined myself in Knoxville, Louisville or some other important "ville" had not the brakeman plainly enunciated "London" when the train pulled in. Various changes for the better have been wrought and to-day the county seat of Laurel, although on the maps of the State so small and insignificant looking, is a place of no mean importance and a business town that "aint to be laughed at." Perhaps my love for London makes me exaggerate just a little on her good qualities, but when I think of the courtesies that have been shown me, the kindness with which my wants were attended during a protracted illness here some years ago, I feel my inability to deal with the subject and with best wishes for its continued success, set it aside for the present.

Among the improvements since my last visit here is an immense plaining and saw mill owned by Faris & Co., and managed by J. C. McKee. It does an immense business and reflects credit on its clever management.

Our good old friend, Mr. J. Hackney, has our congratulations for a long and happy married life and our best wishes also attend his bride. Although neither of the contracting parties are as young as they used to be, the honeymoon seems none the less pleasant and that both of them are "glad they are living" is plainly apparent.

The democrats here are still sore over the gerrymandering bill passed by the last Legislature. They dislike being a part of the bloody 11th, but swear by all that's holy that they will try with might and main to beat the lucky candidate in the present convention. May the good Lord help them to do so. A democratic congressman in the 11th would look rather peculiar, but is just the thing needed.

The republicans have this week to themselves and from the crowd that has been here and the noise that has emanated from the Court-house they have had a big time.

The following are the newspaper men that have been here this week: A. Y. Ford, Courier-Journal; T. R. Thompson, Commercial; W. P. Campbell, Evening Post, Cincinnati; T. L. Walker, Lexington Leader; J. B. Rucker, Somerset Reporter; A. A. Lewis, Somerset, Republican.

The hotels are doing a land-office business and are accommodating the 300 or 400 delegates to the convention to the best of their ability. Capt. Frank Riley, than whom there is no better man or democrat, is doing his share of the business and doing it well.

Our handsome young friend, Charles R. Brock, has charge of the College here and has besides a large and flourishing school, the satisfaction of knowing that he is pleasing both parent and pupil with his mode of teaching. He is an elegant young man and by his kind words for the I. J. has won a number of subscribers for it.

About the most unpleasant part of life in the mountains are the fearful roads. Main street from beginning to end is mud from a foot to two feet deep and is nearly impassable. Contract has been let for grading it, however, and we trust ere the arrival of eastern speculators it will be in good shape.

For a town so thoroughly prohibition as this place claims it is, there has been a good deal of drinking visible for the last few days and the wonder is there is no effort to find where the whisky comes from. The residents claim that the delegates brought it with them, but if this is true they were evidently loathe to the guards with the stuff. Anyhow the charge is a pretty severe one on the delegates, who, with a single exception come from prohibition counties.

The poetry on the congressional aspirants of the 11th, in the Crab Orchard letter was greatly enjoyed here and the INTERIOR JOURNAL, as usual, sold above par. Wilson says he will, if nominated, have each of his constituents subscribe to the "cheapest and best." A good idea, indeed. This would, of course, reduce the republican majority and hereafter there would not be so much wrangling after the office.

The great convention was called to order at 11:15 Tuesday by D. G. Colson and after prayer by a Knox county brother, Mr. Ramsey, of Laurel, nominated J. M. Sebastian, of Owsley, for

Chairman, which was seconded by D. G. Hill, a Whitley county delegate. Ramsey, Hill and Col. Silas Adams conducted the chairman to the stand, where he was introduced by Colson. He made a short speech and on motion of Mr. Colson George H. Dains, of the Middlesboro News, was made secretary and the representatives of the several republican papers assistants. On motion the chair was directed to appoint one from each county without a contest, to act on each of the committees. The committee on credentials was announced and the convention adjourned till 7 o'clock, p. m. The Finley men caught it in the neck at every point on the preliminary organization.

At 7 o'clock the credential committee was not ready to report and after an effort of the Finley men to prevent it, an adjournment was had till 10 o'clock tomorrow. I am forced to leave to-night and shall not be able to see it done myself, but I am sure that Finley will be put in his political grave. It looks now like "John Henery'll get there."

E. C. W.

DEADWOOD, CASEY COUNTY.

John Hicks has fled the county and his family claim to know nothing of his whereabouts.

Henry Ellison, living one mile from here, is dangerously ill with brain fever and is not expected to live.

J. A. Wall has been appointed justice of the peace instead of W. G. Bailey, resigned, and held his first court at Yosemite Friday. Let us hope that law and order may reign supreme in that heretofore lawless town.

Let the republican fight go on. It is becoming more and more apparent that either G. A. Denham or O. H. Waddie will be our next Congressman, either of whom would be a credit to the present representation.

The Teachers' Association of this county will be held at Liberty on the 2d Friday night and Saturday following instead of the 1st as reported by your Middleburg scribe. All friends of education are invited to be present.

Mr. E. P. Claypool, late of Bracken county, is our postmaster and a clever fellow he is, too. It was through him that the post office was lately established here, which is a great convenience to the people of this community.

Capt. A. Evans was here last week looking after the land of the Green River Lumber Co. Mr. Evans says he intends settling up this land soon with Bracken county farmers. It is hoped that he will succeed if they are all like those who have already come. Bracken has a good democratic majority and could afford to send us some 50 of her democrats to help swell our number and make old Casey solid.

HUBBLE.

—Jackson Vaughn, of Indiana, is visiting J. W. Eubanks and family. Miss Mattie Eubanks has been visiting friends at McKinney. —Joe Swope sold his shoats weighing about 75 pounds, for \$1. —Mrs. S. Dunbar's brother-in-law, Wm. Lay, living at Somerset, died of lung trouble last Friday. All friends have our sympathy. —Mr. Reuben Flora, of Middlesboro, reports more improvement going on there now than has been for some time. Mrs. Hackley has moved to her son-in-law's, Jerry Sandigie, near Providence, to spend a few days. Mr. Sam Engleman has gone to Casey county to look at some land. Mrs. C. C. Link has returned from a visit in Ohio. Joe Robinson, Jr., is quite sick, but Dr. Carpenter, his physician, thinks he will be better soon. —Darl Penman has a new girl at his house. —J. W. Bright has sold his hogs, to be delivered in November, at 4 cts. Turkeys are worth 6 cents and eggs 12 1/2 cents in this market. Wheat threshers have at last reached our settlement.

The Census.

The work of this census is the first ever executed by electricity. In the mere enumeration in gross 15,000,000 schedules were twice gone over. The count proper began on July 1 and in six weeks the names were counted twice. The figure of 50,000 names per day was reached on one day by 43 operators. One operator, a lady, reached the total of about 80,000 names. The female clerks averaged about 47,000 names, against 32,000 for the male clerks. The magnitude of the work may be inferred from the fact that some 4,000 employees are engaged in tabulating results and executing the other operations of the census. It is estimated that the population of the world, if scheduled, could be counted by the United States census office in 200 days.

Attention, Whitley Democrats.

WILLIAMSBURG, Oct. 1.—The democrats of Whitley county are hereby requested to meet at the court-house in Williamsburg on Saturday, Oct. 4th, at 1 o'clock p. m., for the purpose of selecting delegates to attend the convention to be held at Barbourville on the 9th of Oct., 1890, for the purpose of nominating a democratic candidate for Congress in the 11th Congressional district. H. C. KINO.

Ch'n Whitley County Dem. Com.

HUSTONVILLE.

—James Frye, of the Mt. Salem neighborhood, has removed to the Dr. Drye property on Bradfordsville avenue. The community rejoices that the doctor has supplied so worthy a substitute.

—A cutting affray occurred on a side street last Sunday. A supply of whisky and a game of craps are supposed to have originated the altercation, which resulted in Logan Cooper using his barlow on Mat Huston; both gentlemen of color.

—Dr. Bill Drye has received an artificial leg, but finds it a painful substitute for crutches. His friends hope that his locomotion will soon be as agile as a boy's. Mr. Russell R. Denton, of Garrard, has been on a visit to his daughter, Mrs. Sam Rout. On his return he was accompanied by his grand-son, Master Wesley.

—Pat Castle and son Will left for Somerset Monday, where they will probably spend the winter. We cordially recommend them to Somerset as gentlemen and scrupulously conscientious carpenters, who will be greatly missed here, if Sam Brown also takes a big job away from home. Having had a look thro' Pat's tool chest, we were not surprised to see four men heaving it into a wagon.

—Hunn & Burns drove through town Monday a lot of 17 excellent yearling steers, bought of George Cunningham, of North Fork, Casey and of Dick Riffe, near town. Andy Cowan bought 16 nice steers of Emmett McCormack at \$12.

R. W. Robbe, a liveryman from the Hub, about which the literary universe is supposed to revolve (!) and where the principal bean canneries are located, Boston, was here early in the week buying roadsters. He made a few purchases at liberal figures.

—Wm. Reid, Sr., still carries his right hand in a huge envelope of white cloth, but thrusts it in a pocket when around where Capt. Huffman could see it, as it was proposed to again try old Roan over the same route and a part of the programme was to see Joe off for Liberty without an inkling of the escape. There have been a few criminalities and recriminations leaked out, but as Henry's wife put the jug in the wagon and the old man is the staunchest prohibitionist in the West End, we shall await reports of the second excursion with some anxiety.

—We are so remote from a branch of the weather bureau that we still depend on the moon and signs for impending changes, and Saturday's north wind and promise of snow by the sputtering fire, alarmed the grangers. Sunday morning was still cold and cloudy and a clear night would have been a repetition of the first Sunday night of last October, when even the sorghum crop was ruined by the freeze. We should certainly have thought the ox in the pit and sailed into our sorghum patch, in imitation of our enterprising neighbor, had it not been that our crop is unusually small and we have been unable to find a stalk much sweeter than the average stalk of sugar corn. Molasses-makers find the stalk unusually rich in juice, but the turn-out unusually small and deficient in flavor.

MIDDLEBURG, CASEY COUNTY.

—The chestnut crop is the largest known since chestnut time began.

—Anyone having news suitable for a newspaper will confer a favor by dropping it into Box 1, at this place.

—T. H. Moran sold to W. M. Cloyd a pair of 4-year-old mules, also bought of R. Cunningham a harness horse for \$110.

—A series of meetings have just closed at the M. E. Church here, several members being added. Rev. Raymon, of Clinton county, and others conducted.

—Everyone is hustling to and fro with mighty speed fixing to attend 4 Paws wonderful show, which will exhibit at Danville next Saturday. The boys are all smiles since the girls have consented to go with them to see the striped zebra.

—Link Woods has returned to his home at Cleveland, Ohio, after a two-weeks' visit here with his old friends. He left here 10 years ago. He is well-known as he taught writing at the College for some time while B. S. Phillips was principal.

—Some one entered the house of W. M. Cloyd, a few nights ago, and loaded himself down with such things in the eatable line as he could carry. No one was at the house at the time, therefore they were not disturbed, but Cloyd says he will be ready, waiting and watching next time.

—John Wilcher went to Cincinnati Monday. W. M. Cloyd went to Liberty Tuesday on business. W. T. Royalty, of Yosemite was visiting relatives here Sunday. Prof. Buchanan was sick Monday. M. D. Royalty went to Hustonville Tuesday. Drummers were as scarce in town this week as the chewing utensils of a hen. Duff Portman and Harry Rains, of Liberty, were in town this week. Several from here attended the marriage of G. Elliott and Miss Bettie Brown, at Mt. Olive, Sunday. Edgar Fogie is attending school at Georgetown. J. W. Dickerson returned from Stanford Monday.

MT. VERNON, ROCKCASTLE COUNTY.

—Thomas C. Nelson, of the U. S. Geological Survey, is here.

—Mr. R. J. Howard and Miss Wright were married Monday.

—Mr. J. W. Brown has sold his residence to Mrs. P. J. Smith.

—Mrs. Rosalind Nesbitt will begin teaching a private school at her residence Monday, Oct. 13th.

—Mr. S. W. Paris has moved to Stanford and Mr. J. W. Nesbitt now occupies the building vacated by him, having purchased it.

—Nathan Buswell, charged with conspiring with Bud Mize in the murder of Big John Minks, had an examining trial Tuesday and was held in the sum of \$1,000. He failed to give bond and was remanded.

—Mrs. Charlotte Roberts was returned to the Lexington asylum Monday. She came home two weeks since apparently cured, but became violent in a short time. This is the fifth time she has been taken to that institution.

—One day last week Jim Woods, who was fined \$25 for cutting up belts, &c., in Holbrookmill, left his assigned work in the court-house yard and broke for liberty. He was recaptured near Orlando the same day and brought back to his old quarters.

—Mr. J. H. Williams made a painful wound in his knee with a hatchet while working at Hank & Son's store. Dispatcher John Williams is home from Rowland sick with fever. The following persons are taking in the fall celebration in Louisville: J. G. Carter, J. E. and J. R. Vowels, Hugh Miller, W. B. Smith, Mrs. M. L. Lovell, Mrs. Mary Carter and Miss Mollie Coyle. Mrs. E. H. Boden was here from London Sunday. Mr. Landram, of Pittsburgh, is working here nights while Robert Brown is laying off on account of the sickness of his mother. Editor Smith is taking in the republican convention at London. Dr. Morgan, of Manchester, was here Sunday. Mrs. Zula Sparks is ill with fever. Miss Nannie Kennedy is visiting relatives here. Mrs. E. Brooks, after a visit to friends here has returned to Paris. F. L. Thompson has moved the remainder of his goods into his office and is closing out and will not open up business again until February, when he gets his own store-house now occupied by McKenzie & Baker. D. C. Poynter has moved his stock into the Adams store-house and W. M. Poynter has opened a family grocery in the house vacated by D. C.

CHURCH AFFAIRS.

—The Synod of Kentucky will meet Oct. 7, at Covington.

—Rev. H. C. Morrison filled his old pulpit at the Methodist church last night.

—The General Christian Church convention will open at Des Moines, Iowa, Oct. 20.

—The average age of 117 Presbyterian ministers who died last year was nearly 69 years.

—Rev. F. D. Hale has taken charge of the McFerran Memorial Church, Louisville, at \$2,500 a year.

—In the Grace Methodist Episcopal church, of Jersey City, it is proposed to expel two young lady communicants unless they stop chewing gum.

—Rev. Preston Blake will preach at the Baptist church here Sunday and Sunday night, in place of Rev. George Hunt, who will preach for him.

—Williamsburg Institute having been offered \$5,000 by Mr. Rockefeller on condition that \$15,000 was secured for its support, has got over \$10,000 pledged.

—Dr. David Morton, Southern Methodist Church Extension Board secretary, has, in the past eight years, raised \$430,000, and aided in building 1,900 churches.

—The Southern Presbyterian Church statistics show 71 Presbyteries, an increase of 2 over last year; 1,179 ministers, an increase of 34; 2,400 churches, an increase of 79; 11,400 additions on examination, an increase of 1,499, and 166,791 communicants, an increase of 7,049. The contributions for all purposes have increased, except for education.

—Edward de Bourbon, a French count, who abandoned title and estates over 30 years ago to take the vows of the silent brotherhood, was on Monday installed abbot of the Gethsemane Abbey, in Nelson county, by Bishop McCloskey. This is a very important event in the lives of the Trappists, whose existence seems to outsiders to be a living death.

Celery acts upon the nervous system and is a cure for rheumatism and neuralgia. Tomatoes stimulate the liver and spinach and the common dandelion, prepared in the same way, have a direct effect on diseases of the kidney. Onions, garlic and olives promote digestion, by stimulating the circulatory system, with the consequent increase of the saliva and gastric juice. Raw onions are also regarded as a remedy for sleeplessness and the French believe that onion soup is an excellent tonic in cases of debility of the digestive organs.

—W. L. Bingham has been appointed post-master at Pineville.

California Killings, Fairs, Shows, Natural Gas, &c.

SANTA BARBARA, CAL., Sep. 24, '90.

DEAR INTERIOR.—A very unprovoked murder occurred in town at 2 o'clock Saturday morning. A white man and a Spaniard were drinking together and engaged in what seemed to be a friendly scuffle. The white man struck the Spaniard rather hard, when, without further provocation, the latter drew a pistol and sent a ball thro' the brain of the former. A great deal of drinking is done here and nearly everywhere else in the State, and murders are of frequent occurrence. Kentucky has a wide reputation as "the dark and bloody ground," but California seems destined to become even more deserving of that unenviable distinction. Since coming to this State, I've read of as many or more murders committed within its bounds than ever occurred in Kentucky in the same length of time, the difference in population considered.

This is a big week for Santa Barbara. The Fair, the Northern Methodist Conference and the Democratic Convention are all in progress and the town is pretty well filled with people; but I dare say it will be fuller next Monday, when John Robinson's Circus pitches its tents here, judging from the interest the people are taking in the bills that adorn every conspicuous place in town. The Fair is pretty good, but in the matter of horse stock it doesn't near come up to Kentucky. There are some very fine horses in California, but not in this part. The display of fruits, &c., is very creditable.

That venerable chestnut, Uncle Tom's Cabin, was played here Saturday night by that more venerable chestnut, Cora Van Tassel. When will this libel on the South, written to prejudice the North against that section, be relegated to the past? It ought to have been suppressed years ago. I always feel like tearing down the lying bills when I see them posted around.

The negro population of California is small, but those who live here are well-to-do, and as a rule are as big men as any body; in fact there is a class that seems to look up to them, and I expect they ought to. They eat at most restaurants, occupy prominent positions in some of the churches and dress as fine as anybody. 'Tis an utter impossibility, tho', to draw the color line in California. Of course, any one can always tell a real negro, but there are so many different shades of individuals it would require an investigation to decide whether they have negro blood in their veins, or that of the Mexican, Spaniard or Italian. To the lower class of either of these, I for one prefer the negro.

At several places in the southeastern part of this State a considerable earthquake shock was felt a little after midnight on the 19th, but no damage is reported. Think I was awakened by the vibrations, as I noticed that a awful stillness that invariably precedes and succeeds an earthquake. I was confident there had been one, and sure enough the papers reported it next day.

There was an equinoctial shower at a few points in Southern California on the 19th, amounting to .09 to .25 of an inch. Here the indications pointed to a heavy rain, but we had only a slight sprinkle.

Gas has been struck at Summerland, about five miles from here, and excitement runs pretty high. The two wells had to be sunk only 45 and 115 feet, when a strong flow was obtained. The people of Santa Barbara are talking of piping it to town and offering inducements to manufacturers to locate here and use it. This, of all countries, could best utilize natural gas as fuel. So often the weather in winter is just cold enough to need a little fire, when a regular wood or coal fire would make too much heat. In such cases, the gas could be turned on and regulated to just the degree of heat desired. Then, in spring and fall, the mornings and evenings are often cold, but the middle of the day warm enough. A little natural gas would be the very thing.

English walnuts are about ready for the market. Most of them have been sold at 7 or 8 cents per pound. The crop is about an average one. Figs are ripe and eat splendidly, but there is not the slightest resemblance in the taste of those taken from the tree and the dried ones.

T. R. W.

In a sermon on the fight between capital and labor, Dr. Talmage said: "There are those who keep in poverty because of their own fault. They might have been well off but they smoked or chewed up their earnings, or they lived beyond their means, while others on the same wages and on the same salaries went on to competency. I know a man who is all the time complaining of his poverty and crying out against rich men, while he himself keeps two dogs and chews and smokes and is filled to the chin with whisky and beer."

DEMOCRATIC TICKET.

For Congress.

JAMES B. MCCREARY.

THE Louisville Times says that Carlisle's speech, delivered Tuesday on the iniquitous McKinley bill, was the ablest effort ever delivered in either House of Congress on the tariff. The speaker estimated that taxes under the bill would be increased, upon iron and steel \$10,000,000, upon wool and woolsens \$14,000,000, upon cotton fabrics \$2,000,000, upon flax and linen \$5,000,000, upon tin plates \$8,735,000, and upon tin pigs or bars \$1,357,000. To compensate for that the tax on tobacco is reduced two cents a pound, amounting to \$5,800,000, for the benefit of the manufacturer, and not for the producer of the leaf or the consumer of the plug. Sugar is put on the free list because the tax on it was for revenue and not protection, while the bounty feature, according to Mr. Carlisle, who is one of the foremost lawyers living, is clearly invalid. But, perhaps, the best of the speech was that portion in which he seized with the grip of a giant the reciprocity feature of the bill and tore it to tatters, showing that it is retaliation on our own people and not reciprocity—a retaliation depending on the judgment or whim of the man who may be president of the United States. The speech is a great campaign document, and its large circulation can not but have a pronounced and beneficial effect on public opinion.

THE Covington Commonwealth professes to believe that there is an overwhelming demand for a secret ballot in the State, but it has not manifested itself in this section that we have heard of. The good old viva voce plan ought to be continued, unless an educational qualification is required with the secret ballot. The Mississippi convention has fixed 1896 as the year that the educational qualification shall go into effect and if we are to have the secret ballot, let us also have an educational proviso, fixing a date sufficiently far in the future for every citizen to qualify himself.

MISS MAUDE GREGORY, who made a great hit in "Money Mad," has returned to her family at St. Louis, thoroughly disgusted with the stage and stage people. She says the stage is a hot-bed of sin, that women are driven like dogs and not even respected by their own profession, each of whom regards her as a white sepulchre. She wants girls to eschew the stage, which she asserts is a wide-open door to hell. The prominence of the lady both in society and theatrical circles gives importance to her statements and they have created a decided sensation.

THE negro, Miller, from South Carolina, who was given a seat in Congress that a democrat was fairly, justly and legally entitled to, got down to business as soon as he got in and offered resolutions to appropriate \$250,000 to erect a monument to commemorate the valor and patriotism of the negro soldiers and a million dollars for the erection of a home where ex slaves may be cared for. After all the latter is not such a bad scheme. The negroes are as much entitled to such benefits as many who are now supported in soldiers' homes.

THE anti-lottery law passed by Congress is very sweeping in its provisions and according to Judge Tyner, attorney for the post-office department, prohibits all schemes for distributing prizes by chance, and applies to the church fair as well as the great Louisiana Lottery Company. An advertisement for a church fair which speaks of a raffle or anything of the kind will be excluded from the mails. This is carrying the thing considerably too far and will disgust the people with such a law.

THE Louisville Post is vindicated. Scott Newman and Zeb Ward, together with City Engineer Scowden, have been indicted by the grand jury for obtaining money from the city by false pretenses and false swearing in reference to the granite swindle. Their suits of \$100,000 each for damages against the paper seem to have been a huge bluff, but Editor Finley stuck to his text and the chances are that the population of the penitentiary will be increased by two or three.

It was easy enough for the "Little Red Hog" to be nominated for Congress in this district, where it is hard to find a republican fool enough to run against our own Gov. McCreary, but when it comes to getting such an honor in the 11th, our old friend does not seem to be in it. By the way, shall we never hear of his report of this district to the census department or did he make any? Every other supervisor has reported long since.

THE public debt increased \$4,582,900 last month and that will continue to be the story as long as the republicans stay in power.

CONGRESS has adjourned and Reed and his mob are now powerless for harm. Let us give thanks.

IN our London letter will be found the preliminary proceedings of the London convention, which is to nominate a candidate for Congress in the bloody 11th. Wilson drew the first blood and Finley was downed all along the line. The committee on credentials did not report till Wednesday night, after a stormy session of many hours. It seated the contesting delegations in both Whitley and Pulaski, giving each the right to cast half of the vote, and seating the delegations from the other contested counties, which were sent by the conventions regularly called and held. Their report was finally adopted, as was also the report of the committee on permanent organization, which named the temporary for the permanent officers of the body. Yesterday morning the nominating speeches were made. Wallace Jones nominated Dr. Nell; J. L. Phelps Col. Adams; Judge Tinsley Mr. Wilson, W. R. Ramsey Judge Boreing and R. D. Hill Judge Tinsley. Trimble was not put in nomination. Finley at first refused to let his name be presented, but it was finally done.

(Special to The Interior Journal.)

LONDON, Oct. 2.—Balloting began at 11 as soon as the speeches were over and the first resulted, Nell 38, Adams 27-6, Boreing 27, Wilson 64 and Finley 46. The 14 votes that Trimble would have gotten from Pulaski went to Nell, but it is thought only a matter of compliment. There was little change to the 5th ballot, which stood Nell 35, Adams 15, Boreing 25, Wilson 78 and Finley 46.

The 9th ballot, taken about 3 o'clock, resulted, Wilson 64, Finley 46, Boreing 39, Adams 14, Nell 37; necessary to a choice 101.

The other faction of the Pulaski delegation is hauling its vote around from one candidate to another. The anti-Finley half of the Whitley delegation is voting 8 for Boreing and 1 each for Nell, Adams and Wilson. Wilson ran up once to 78. Finley has gotten desperate. It is in the wind that he may throw his strength to Nell. He has no hope of winning himself, but can dictate the nomination. The Nell men are very sanguine, but the result is beyond prediction.

FORD.

Few people have an idea of the vastness of the L. & N. as a railroad corporation. It represents \$48,000,000 of stock and a total mileage of 4,106.75 miles, 1,885.22 miles of which are owned absolutely and 1,022.33 miles are controlled through the ownership by the L. & N. of a majority of the stock. The bonded debt has been decreased from \$66,726,000 to \$56,177,000. The gross earnings for the year were \$18,846,003.92, the net earnings from traffic \$7,422,911.45, and the net surplus after all expenses were deducted being \$461,274.81. During the year \$2,814,000 were spent in construction. The whole number of passengers carried was 5,193,630, an increase over the number carried last year of 850,455, equal to 19.83 per cent. At the annual meeting of the stockholders at Louisville Wednesday, \$30,000,000 of the stock was represented. The old officers were complimented by being retained and there was a general expression of satisfaction in their management of the great concern.

THE con. con., in the face of the fact that 76 of Kentucky's 119 counties are paupers, that is they draw more from the treasury than they pay in, and that 8 counties pay 80 per cent. of the net revenue of the State, defeated the committee's report that no more new counties shall be formed, except the area be 400 square miles and the population 10,000. Strans, of Bullitt, thought that the question ought to be left to the legislature and his amendment was adopted. It begins to look very much like the State will get very little out of her investment of several hundred thousands of dollars in the convention.

THE infamous tariff bill is now a law, having been passed and duly signed by the two presiding officers of Congress and the president. Perhaps it is just as well for the democrats that the party in power has forced this measure on the country, but it does not sound well to have it said that it could not have become a law except for the almost criminal absence of democratic Senators, who had they been present and voted, the iniquity could not have been accomplished, with the several republicans voting against it. The absentees were Payne, Gibson, Eastis, Call, McPherson and Dolph.

AFTER putting on a show of virtue and swearing that it would ne'er consent, the con. con. consented to accept Louisville's invitation to attend the celebration and be her guests. The body accordingly left Frankfort yesterday in a special train to enjoy its first junket. As it was doing next to nothing at Frankfort, it is hoped the little recreation afforded it in Louisville may prove beneficial.

S. A. WHITEFIELD, of Cincinnati, has been appointed to succeed Clarkson as first assistant postmaster general. As Clarkson has turned out all the democrats there will be little to employ the time of the new incumbent.

THERE ARE six suits for divorce already filed for the coming circuit court. Three of them are by negro couples and the others are by whites. Mrs. Mary Page Jones asks to have her marriage bonds annulled because her husband, H. S. Jones, cruelly beats and otherwise mistreats her; J. R. Cain charges his wife, Cordelia, with lewd, lascivious and unchaste conduct and wants a separation, while Mrs. Mary J. Williams asks to be divorced from Weeden Williams because he has abandoned her. Mrs. Williams has once or twice before figured as plaintiff in divorce suits.

THE Cains elected to be tried singly and Pete was the first to undergo investigation for robbing and burning Jim Carter's store. Mrs. Daugherty, mother-in-law of Mr. Carter, swore that she saw Cain driving towards the store after supper the night of the burning and heard him return afterwards. It was also shown that he had been overzealous in his efforts to appear innocent and numerous and sundry incidents went to connect him with the crime. On the other hand he testified that he was at home on the night of the fire and that he spent the day hunting for a calf. Judge Vernon didn't think he had cleared the suspicions attaching to him and held him in \$250 bond, which was given by his attorneys, Hill & Alcorn, whom he indemnified. The trial of Jim and Tom Cain was then on motion of their attorneys postponed till to-morrow, Saturday.

YOUNG GOOCH, who was so seriously shot by the constable's posse, is getting well. You can't kill some people, no matter what you do. Let us hope that this one has been spared for some good purpose.

The examining trial of Tom Carter for throwing the club that broke Alex Walker's skull, was had yesterday and resulted in his being held in \$300 bail, which he failed to give. Walker is recovering.

WHEN Mrs. W. M. McAfee passed over the Missouri Pacific she was forced to walk around a wreck in the drenching rain, from which she contracted a cold, which has impaired her health. Her husband brought suit for \$5,000 against the company and Wm. Jarrett and Judge Buckner, Missouri lawyers, are here taking depositions.

The grand jury will be called upon to investigate the charges made by Mart Smith in his testimony that a band of men had organized to rob the Stanford banks, and one of them had attempted to force him into the plot at the point of a pistol. The jury will please make a note of this. We want to know who this band is that they may be dealt with according to law.

A COLD-BLOODED MURDER.—L. M. Lasley writes to us from Louisville: "The facts as related by letter as to the killing of J. T. Lasley make it a case of malicious murder. He had walked up town after supper and stepped into a store where Garner was. Garner turned to him unprovoked and made a very insulting remark to him, to which Tom replied that he would have no difficulty with him, nor be bullied by him, and walked out of the store and started down the street. Garner followed him and shot him from behind without warning, then shot him three times after he had fallen. Tom was unarmed. He was dead when the first friend got to him." Mr. J. W. Lasley also sends us a similar statement to the above.

A PARLOR SET GIVEN AWAY.—Our enterprising friend, M. Salinger, of the Louisville Store, always anxious to favor his patrons, has inaugurated a scheme to give one of them a handsome plush parlor set free. For every dollar's worth of goods, he gives a ticket, keeping a number to correspond. These numbers will be placed in a box during Christmas week and a drawing held in the presence of prominent citizens, when the beautiful set will be given to the one who holds the number drawn. Last Christmas Mr. Salinger gave away a fine organ in the same way and everybody was pleased with the fairness of the scheme. As he sells goods at very low prices, you will save money and perhaps get a parlor set by dealing with him.

MATRIMONIAL MATTERS.

—Joseph Corminey and Miss Annie Belle Edwards, a sweet sixteen-year, were married at G. W. Edwards' on the 30th.

Four little ones, Maud Mueller, Nina Carpenter and Tevis and James Carpenter stood up with the pair and the ceremony was a very pretty one. After the knot was tied and congratulations extended, the guests, which included only a few intimate friends and relatives, were escorted to the dining room, where an elegant supper was discussed and heartily enjoyed. The groom is the excellent jeweler at A. R. Penny's and since coming among us has, by his gentlemanly bearing and becoming conduct,

won many friends, who are glad that he has gotten so worthy a bride, for Miss Belle, is a capital woman in every respect, besides being a very attractive and lovable one. We hope and believe that the union will prove a happy one and trust that they may live and love to a ripe old age.

—Gen. Booth, of the Salvation Army, has decided to form a great matrimonial agency. He is shocked at the number of spinsters who would make good wives and he is determined to undertake on a large scale the introduction to each other in an honest way of men and women who desire to marry. We will now hear of myriads of old maids joining the army.

—The last spike in the Richmond, Nicholasville and Irvine railroad was driven at Versailles Monday evening.

—Thomas C. Ball has bought of W. M. Ball's heirs their interest in the old home place, equal to 40½ acres of land, for \$345 cash in hand.

—The Cincinnati cattle market is quiet at 3¢ to 4¢ for best shippers, feeders 3 to 3½; hogs are weak at 3 to 4¢; sheep are firm at 2½ to 3½; lambs 3½ to 6.

—The Wilkes 3-year-old stallion Aleyon, owned by Dr. John Wilbur, of Palmer, Mass., and valued at \$10,000, was burned in a barn near Iowa City, Ia.

—Sales of a lot of 1,500 pound cattle at 4¢; 50 two-year-olds of 1,250 pounds at 3¢; and a car-load of 200-pound hogs at 3¢ to 4¢, are reported in the Winchester Democrat.

—In the Fowler Bros. great packing house at Chicago, which burned Sunday, over 7,000 hogs were roasted to death and great quantities of cured and pickled meats consumed.

—What is meant by a sugar mule is a first-class unbroken 2-year old. It is said that an untrained 2-year-old mule sells more readily and to much greater advantage than otherwise.

—E. P. Woods received a number of fine mule colts from Garrard parties Wednesday. James Little brought him 4 at \$60, Sam Murphy 1 at \$75; A. Teeters 1 at some price and several others at \$61 to \$90.

—A Yankee has invented a chicken hobbler, consisting of a spring attached to a hen's leg, which, when the hen attempts to scratch, will move her onward, and will, in fact, walk her right out of the garden.

—Lady Wilton, the bay two-year-old filly, by Wilton, 2:19, dam Lemonade, has been sold by Bowerman Brothers, of Lexington, for \$10,000. This is the largest price ever paid for a 2-year-old trotting filly. Her record is 2:35.

—The sale of J. W. Shelby was well attended, but property brought poor prices. The land was withdrawn at \$45 for the whole place and \$55 for the 200 acres including the residence. T. E. Pollard-Angus cattle did not bring much more than beef prices; a 2-year-old Second Jewel colt brought \$131.50 and farm horses low figures; o'd corn in crib brought \$1.87 and new at heap \$1.75.

Wasted Eloquence.
"Matilda," the young man said, nervously, "What I am going to say may surprise you. But my feelings are leading me on. Encouraged by your kindness, intoxicated by your beauty and rendered desperate by the conviction that the hours are fleeting away and that the future can hold nothing for me worse than the suspense under which I now labor, I have resolved to risk my fate on the cast of the die."

He loosened his collar, coughed and went ahead.

"Other young men, Matilda, mere butterflies of fashion, may dance attendance upon you and flatter you. Listen not to them! Listen to the voice of sincere devotion! Other young men, talented, nay, perchance young men possessed of wealth in abundance, may seek your hand. I am not talented, Matilda, I am not handsome. I have not those delicate little arts that win the affections of women. I am not rich—"

"No, Mr. Dennis," said the young beauty, with a yawn and rising to her feet, "I regret to say, also, that you are not in it."

Mr. Dennis withdrew from the competition at once. He was clearly outclassed.—Pittsburg Dispatch.

Life is a journey, not a home; a road, not an abiding place; a preparation, not an abode of rest. The joys of the way are but as resting spots on the road, where we may be refreshed for the moment that again we may journey on, seeking what is still before us—the rest that remaineth for the people of God.

The gambler lives on our hopes, the lawyer on our quarrels, the doctor on our ills and the clergyman on our fears. The millennium will throw these people all out of employment.

LIBERTY, CASEY COUNTY.

—It will be remembered that on the 25th of August there was a called meeting of the old soldiers at Liberty for the purpose of having a re-union and it was decided to have it on the 8th of October and continue two days. I am requested by two prominent members of the committee of arrangements to notify those at a distance who contemplate attending that there are no preparations being made to entertain a large collection; that the time allowed is too short; and that the means liable to be raised would be insufficient without an organization for the purpose over the county. That as happy as the people of Liberty would be to take care of and entertain the veterans, since the big fire the hotel accommodations are insufficient and private families have not sufficient room. If I understood the committee right, they do not wish to nullify the action of the old soldiers' meeting, but simply to let people at a distance know the prospects and risks to run in being taken care of properly. The writer knows from experience that the people of Liberty, are a liberal one in such matters, but common sense should teach those who have not properly considered the subject, with her limited house room it would be impossible to comply with impossibilities. Surrounding papers will please copy substance of the above.

"The Chicago Columbus Tower," which is to be erected in 1893, will be 1,500 feet high by 480 feet at the base, constructed of steel and iron and supported by 16 great arched legs. It will require over 7,000 tons of steel and 6,000 tons of iron. Its estimated cost is \$2,000,000. In the centre will be a large dome 200 feet wide and 200 feet high. This is calculated for concert and theatrical purposes and will have a seating capacity of 25,000 people. Eighteen elevators with a capacity of 50 each will make 12 trips an hour. Only two elevators will run a distance of 1,250 feet. At the apex will be a great globe of 33 feet in diameter, provided with 16 powerful electric lights, which will be observable 50 miles distant. Admission fee will be 25 cents; 50 cents to 400 feet and \$1 to top. When completed it will be 500 feet higher than the Eiffel Tower in Paris and the greatest architectural construction erected in the history of man.

ROMANCE OF A CURL.—About 39 years ago Capt. James H. Miller, of the United States Volunteers, sat behind Jennie James, a pretty miss of 18 at a camp meeting. Jennie had bewitchingly long curls which the captain could not refrain from pulling. From the shock of that pull his feelings never recovered. The two became intimately acquainted and when the captain was ordered to Virginia with his regiment he took away the heart and a ring of Jennie's. Since then Jennie, tired of waiting, has married three times. The captain has also married, but the infatuations of the curls always remained with him, and the other day, when he died he left Jennie \$63,000. Jennie was found in a squalid room with a squalling baby. She was overjoyed when the news was broken to her.

A BROKEN NECK MENDED.—Physicians connected with the Presbyterian Hospital are highly elated over the fact of their having successfully mended a broken neck. The patient, Harry Reigel, aged 14 years, fell from an elevator, landed on his head and dislocating his neck, on May 8. When brought to the hospital the case was considered hopeless, but by experiments with extending weights attached to the patient's head and feet the neck was eventually set and kept in place by means of a plaster of Paris jacket. The displaced bones are now properly set and the patient has full power of the neck.

The black tie is being worn altogether with dress suits in the fashionable East. It is considered the only proper caper and the larger the tie the more it will be in accord with the demands of the fashion. A single stud of white pearl or silver is worn, though two studs are permissible—three never. The vests are cut egg-shaped and either black or white is proper. Dress suits are no longer made of broadcloth, but of a light texture of Nun's cloth, or very fine diagonal.

I have always been regarded as exceptionally favored by fortune, and I do not wish to complain or find fault with the course of my life. But, after all, it is nothing but labor and toil; and I may truly say that during my 75 years I have not had four weeks of real comfort. It is the never ceasing rolling of a stone which must always be lifted anew.—Goethe.

The largest gun ever made has just been finished by the Krupp. It is made of cast steel, weighs 235 tons, has a calibre of 13½ inches and a barrel 40 feet long. Each discharge costs \$1,500, and two shots can be fired in a moment. The gun belongs to Russia.

The tide of empire is flowing rapidly to the westward. The centre of population of the United States is now at Madison, Ind., near the junction of the 36th parallel and the 85th meridian.

Recent trustworthy calculations of the population of the Chinese Empire by Russian authorities, put it at 382,000,000, and the annual increase at 4,000,000.

While the kiss of a pretty woman might be considered a harmless compliment anywhere it is doubly a compliment—twice as sweet and romantic—when given beneath the oaks of a moonlit park, with the stars trembling like diamonds through the dewy leaves and the hush of flowing fountains splashing their silver spray over the bared bosoms of water nymphs and atlantea gods with beautiful blind eyes.—Atlanta Constitution.

Thomson, of Columbus, Wis., is particularly interesting: "My wife," says he, "has been treated for her head, stomach and nervous prostration by three doctors in New York, two in Chicago, one in Philadelphia, one in Cincinnati and at the large institute in Buffalo for six months. They all failed. But one bottle of Dr. Miles' Restorative Nerve and Liver Pills cured her.
